cloth vs. disposable

COST

If you wash them yourself, cloth diapers are less expensive. If you decide to use a diaper service, it's a wash!

HEALTH

Using cloth diapers may prevent allergic reactions to chemicals found in some disposables.

CONVENIENCE

Cloth is just as easy to use, but it is less absorbent, so it must be changed more often.

ENVIRONMENT

With cloth, you don't have to worry about diapers being biodegradable or using resources like trees or plastic. On the other hand, disposables don't use up energy or water being cleaned.
